Architects

In keeping with its 'end-to-end' commitment to Fairview Manufacturing's new South Auckland office and warehouse, Haydn & Rollett put its joinery team to work on the final touches. Backdropped by green feature glass, the reception desk is an eye-catching sculptural piece of oak-veneered melamine with an angled front.

The staff room kitchen, meanwhile, is built around overhead and floor-level melamine cabinetry with a timber grain finish, stainless steel tops and a splashback in the same vivid pear green glazing.
