

Joinery

Project
Commercial

Location
66 Wyndham Street
CBD, Auckland

Client
Cachet Group

Value
\$250k

Tackled concurrently with the Bank of China project and to the same tight deadline, this job at MYOB's new Auckland headquarters put the heat on Haydn & Rollett's joinery department.

Possibly the most challenging element was a feature wall at the entrance in which MYOB's logo appears 'stamped' into vertical battens. Manufactured and installed in sections because of the sheer scale of the wall, it involved painstaking hours of programming on the workshop's CnC machine.

Elsewhere, the team fleshed out the staff kitchen with a large island of fingerprint- and scratch-resistant soft-matt laminate, as well as booths upholstered in rich plum; created a bright pink upholstered nook; provided Melteca benches and shelves for the meeting rooms; manufactured a wall of charcoal lockers and 'Feel Fabulous' pink cubby holes; and installed upholstered seating in the 'Play' area and beside the feature wall at the entrance.
