Joinery

Project
Commercial

Location
8 Tangihua Street
Auckland CBD

Client
Cachet

Value
\$144k

Haydn & Rollett Joinery delivered a comprehensive joinery package for Cachet's Tangihua office project in Auckland's CBD. The scope included integrated kitchenettes, curved upholstered banquette seating, workstations, lockers, storage units and feature walls, combining Melteca, high-pressure laminate and Caesarstone benchtops.

Prefabricated in the workshop and installed onsite, the joinery brings warmth, functionality and visual continuity across the workplace. Close collaboration with Cachet's designers and clear communication throughout supported the smooth delivery of another successful project for this repeat client.
