**Property Services**

Project
Commercial

Location
300 Great South Road
Takanini
Auckland

Client
Howard Trading Ltd

Value
\$330k

Period
2 months

Haydn & Rollett completed a two-stage reconfiguration and refurbishment of Toyota Papakura over an eight-week programme, bringing the live dealership in line with Toyota's latest dealership standards. The works upgraded the showroom, aftersales service and reception areas, and customer lounge, improving the layout, functionality and overall customer experience.

Careful staging enabled the dealership to remain fully operational throughout construction. Controlled work zones, clear signage, maintained access routes, and effective noise and dust management ensured the safety of customers and staff while minimising disruption. Close coordination between the project team and dealership staff supported the smooth delivery of the works while maintaining customer service and a consistent brand presence.
